INDIA'S ACADEMIC PARTNER

FROM THE PRINCIPAL'S DESK

Mr. Benny Sebastian
Principal

“Education is not preparation for life; education is life itself.” —John Dewey

It is my great pleasure to jot a few words down as we continue on our academic journey further. Believe in ourselves and our abilities, change is certain. We are capable of achieving greatness and making a positive impact in the world. However, to do so, it is important that we need to prioritise and set goals for ourselves and work hard to achieve them. This means, stay focused, disciplined and motivated.

As we embark on our academic journey, I want to remind you of the importance of perseverance, dedication, and hard work. The road ahead may be challenging, but with determination and a positive attitude, we can accomplish our goals.

Child's learning involves and revolves around an effective partnership between home and school. We know the stronger the partnership is the better your child will benefit.

Students are engaged in meaningful learning and the staff members are valued and appreciated for their efforts.

Remember that education is not just about memorizing facts and figures. It's about developing critical thinking skills, honing your creativity, and discovering your passions. Don't be afraid to reach out to your teachers and peers for help. Collaboration and teamwork are essential to success, and your teachers and peers are there to support you. Take advantage of their knowledge and expertise, and don't hesitate to ask for guidance when you need it. I urge you to be kind, respectful, and inclusive. Embrace diversity, celebrate differences, and strive to create a welcoming and inclusive learning environment for all. Looking ahead, I am excited about the opportunities and possibilities that the future holds for our Students. We are committed to providing a safe and inclusive learning environment that promotes academic excellence and personal development. We will continue to invest in our faculty and staff, as well as in our facilities and resources, to ensure that our students receive the best possible education par excellence in our school.

CELEBRATION AND ACTIVITIES

Parents Meeting & Annual Result Day:

A parent-teacher meeting is a scheduled event where parents and teachers come together to discuss a student's academic progress and behaviour. These meetings usually take place at the school and are an opportunity for parents to meet with their child's teachers, ask questions, and share information about their child's strengths and weaknesses.

During the meeting, teachers provide updates on the student's academic performance and behaviour, and discuss any areas where the student may need extra support. Parents can also ask questions about the curriculum, homework, and upcoming assignments. The meeting is a mutual enriching chance for both parents and teachers to work together to ensure the student's success and provide a supportive learning environment. Effective communication between parents and teachers is crucial for the student's academic and personal development.

Along with we arranged the result day of the school. It was the most exciting day of the academic year, the day on which the heart beats fastest. Our students flared well with outstanding performances.

One Step Closer – KG Graduation Ceremony

Our Rising Stars! Our little preschool graduate has come a long way! Graduation is a time to celebrate an extremely pivotal milestone in people's lives. The milestone in education is something worth commemorating and enjoying. Their shining day shows that they love all they have accomplished throughout the year. Making the leap from being a preschooler to a higher class was big enough, and now all their hard work has paid off. For the parents, it's a time to show their children the value of education through positive reinforcement and support. Many parents turned out to partake in this meaningful event.

April Newsletter

World Health Day

It is celebrated every year on April 7th to raise awareness about the importance of health and well-being. On this day, various activities and events are organized worldwide to promote healthy lifestyles and advocate for better healthcare systems. World Health Day reminds us of the importance of taking care of our health and working towards a healthier and fairer world for all.

World Art Day.

“We all are gifted with some form of art. We all are gifted with some kind of creativity”. We just need to explore. A picture is worth a thousand words and emotions.

World Art Day is a celebration of creativity and artistic expression that takes place on April 15th every year. This day was established by the International Association of Art (IAA/AIAP) to raise awareness about the importance of art in our lives and promote cultural diversity.

We had arranged an art marathon in our school in connection with World Art Day Celebrations. All the students actively participated in it as per the unique themes and brought out fine artwork within the given time limit.

April Newsletter

World Creativity And Innovation Day.

"World Creativity and Innovation Day is celebrated on April 21st each year to promote the importance of creativity and innovation in all aspects of life. This day encourages individuals, organizations, and communities to embrace new ideas and technologies that can lead to positive change.

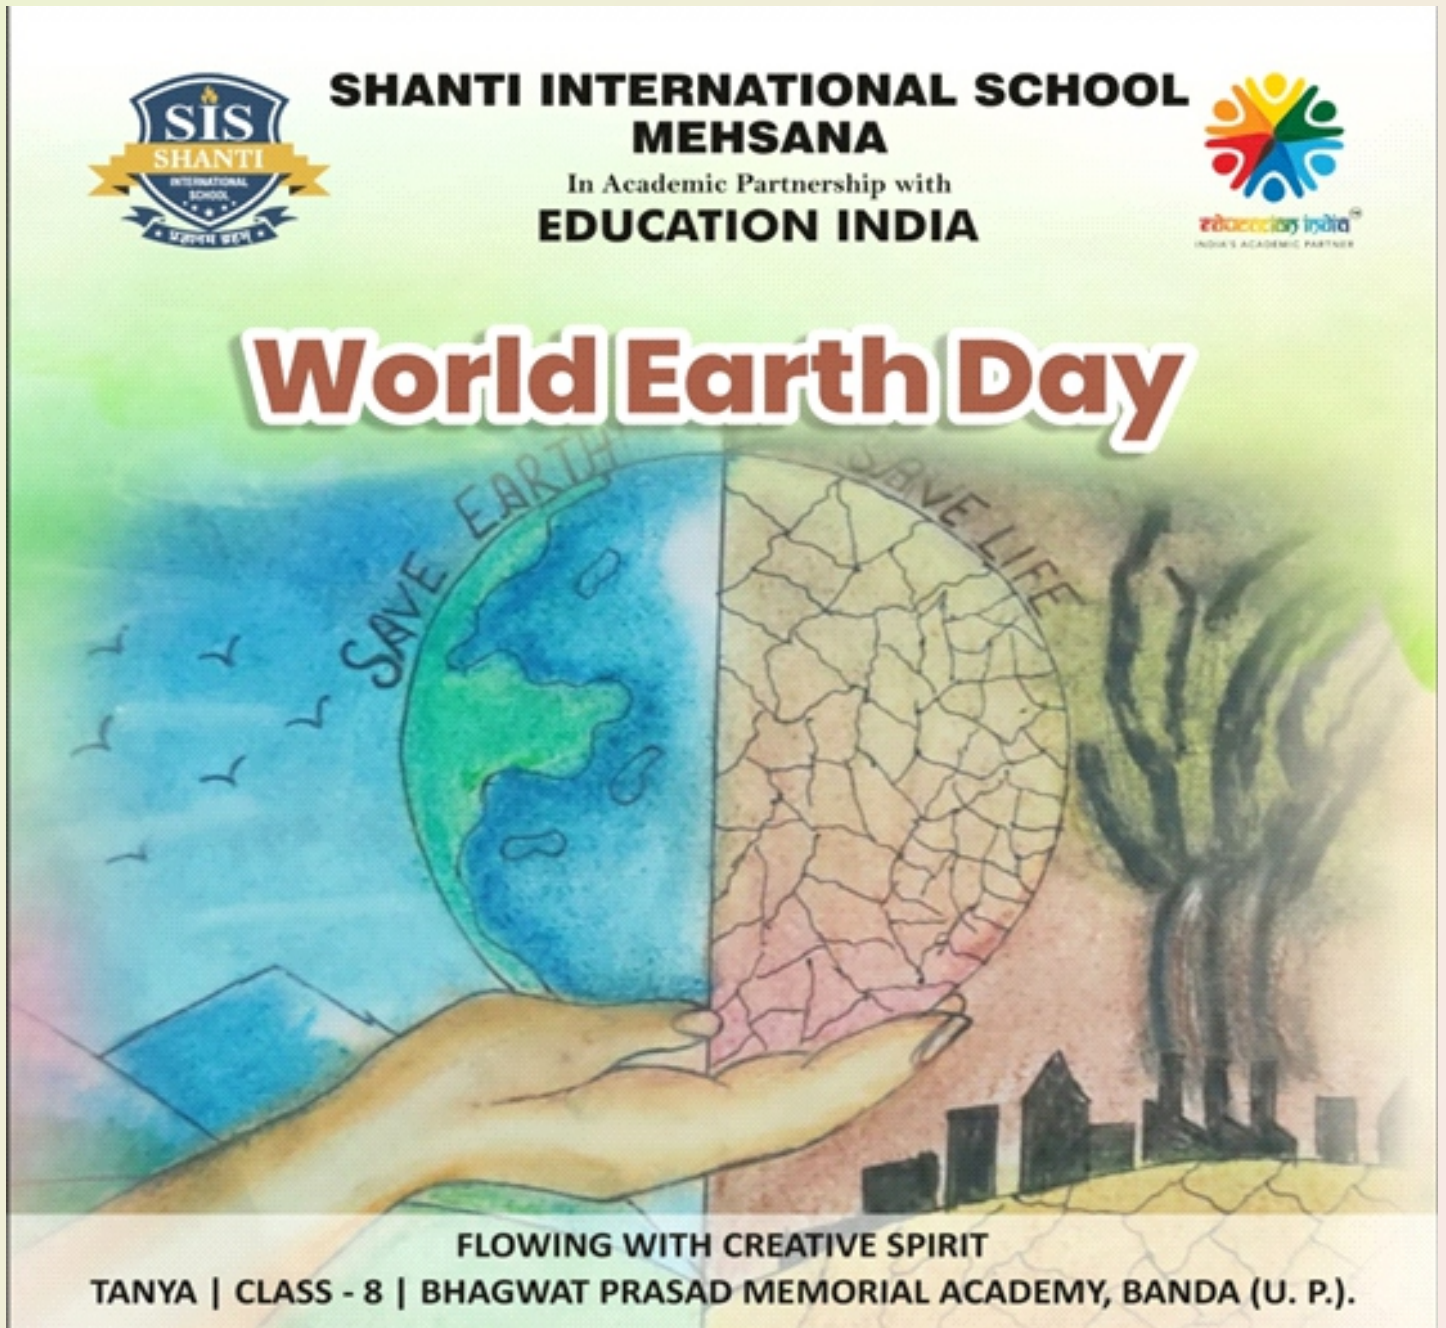

The celebration of this day highlights the power of human imagination and its ability to create solutions to complex problems. It also recognizes the need for creativity and innovation to drive economic growth and social development. Through various activities such as workshops, seminars, and exhibitions, World Creativity and Innovation Day provides a platform for individuals and organizations to showcase their innovative ideas and technologies. We had arranged a fantastic occasion in our school to display the creative and innovative works of our smart students.

Green Day.

Green represents purity, innocence, light, and goodness. It is the colour of perfection. As green is the colour of life renewal, nature and energy which is closely associated with meanings of growth, freshness, harmony, fertility, and environment.

Green is the most common colour in the natural world. Green is said to have healing power and is understood to be the most relaxing and restful colour for human eyes. It is one of the secondary colours.

In order to emphasize the importance of green colour, Shanti International School, Mehsana, conducted Green colour day for the Pre-primary children on 26th April, 2023. All the students came dressed in different shades of green; they also carried and spoke about their favourite green colour object and enjoyed. Our Teachers also joined the celebration by wearing green colour dress.

Bridge Course Class Room Activities

We have organised Bridge Course immediately after the second term examination in our school. It aims to fill in any gaps in knowledge or skills that may exist and ensure that students are adequately prepared for the upcoming academic year. Classroom activities are essential to keep students motivated and engaged in the learning process. They help students develop critical thinking skills, teamwork, communication skills, and creativity. Additionally, classroom activities encourage students to participate actively, ask questions, and seek clarification when needed.

Learning is the process of acquiring new understanding, knowledge, behaviors, skills, values, attitudes, and preferences. The benefits of classroom activities are numerous, and they can be tailored to meet the needs of students of different ages and learning styles. Teachers should aim to incorporate a variety of activities into their lessons to promote student engagement and ensure learning objectives are met. This was an amazing time for our students.

Co- Curricular Corner.

Co-curricular activities are those activities that are undertaken along with academic studies. Typically, co-curricular activities are carried out outside the normal classrooms, but they supplement the academic curriculum and help in learning by doing. These activities help students to develop problem-solving, reasoning, critical thinking, creative thinking, communication, and collaborative abilities. We had arranged various activities to supplement our students with the studies.

International Dance Day

Dance is a language beyond words, expressing that for which we have no words. – Jennifer De Leon. Dance is the way to express our emotions and feelings. Dance is like breathing, it is like catharsis. Enjoy it to the fullest and let your feelings flow.

Dance is not just an art form but also extremely beneficial for overall health because it is said that 30 minutes of dance class is equivalent to a jogging session. It is one of the best and most fun fitness exercises in which there is no need to lift heavy weights, no painful stretches, etc. Dance also has various benefits for mental health and is a great way to relax.

It is celebrated every year on 29th April, the birthday of Jean-Georges Noverre (1727-1810), creator of modern ballet. The primary intention or aim of the International Dance Day Celebration is to raise awareness about the benefits of dance. Dance crosses all political, cultural, and ethnic barriers, and brings people together with a common language - DANCE.

We had a befitting International Dance Day Celebration in our Shanti International School, Mehsana.

PARENT'S TALK

Student Name : Kshika Yadav
Parent's Name : Mr.Pawan Jeet Yadav and Mrs.Anu Yadav
Class : 1st B

We are parents of Kshika Yadav. Our child studies in class 1st B in Shanti International School, Mehsana.

The teachers of this school are very nice and understanding. They teach our child very well and thus, our child can understand the concept of the book. Our daughter come home everyday tells us stories about how fun it is to be in school. There are also extra activities to freshen up the child's mind and the activities help our child to learn something new and become confident and creative . In the school several competition are held to make children competitive. In every month the school held PTM which help us to know about our child's growth. Teaching staff are very dedicated towards the school and towards the children , their support is really appreciative. The expertise teaching of teachers has put our child mind at ease . We are so grateful to have the staff of SIS as our child's teacher. Thank you for your hard work in supporting our daughter as she developed. Your patience and commitment to support our child is really thankful.

PARENT'S TALK

Student Name : Riyan Patel
Parent's Name : Mr. Anand Patel and Mrs. Meghana Patel

We, the parents of Riyan Patel are proud to be a part of this esteemed institution. SIS learning system has made a great and a positive impact on our children. SIS endeavors to install a learn of self discipline in the student. The school has nurtured the potential and talent of our son. We are extremely happy with his performance. Our son is eager to come to school every day. The school has excellent staff and environment. The school indeed makes every student strong and ensures that each student is able to retain his goals and strive for perfection.

TEACHER'S TALK

Ms. Sunita Sahu
Maths Mentor

Our hand has 5 different fingers with each having a unique role and a unique feature but united together, they become a powerful fist; similarly Team SIS, Mehsana, has given provision for different elements to come together. Shanti International School has given freedom for each teacher to think creatively and execute it. It allows teachers to take decision independently in improving each child's interest towards academics.

SIS has created an open platform for discussion between teachers and parents through the App and the Mail. For me, teaching is a part of my learning. As I teach, I too learn many things from my little learners. I often noticed that my little learners have benefitted a lot of good and made several positive changes from my dealing and teaching style. Teaching is all about becoming a bridge that connects the students by which their true potential can be encouraged and fortified. It helps me in return to strive hard to achieve their hopes and Aspirations. Children are like wet clay; they are moulded with all that is taught to them. I feel good and happy, when my students understand and comprehend the key points of my teaching in its right sense. SIS plays a pivotal role, in ensuring due freedom for teachers and students.

So, I could proudly say that the continued success of Shanti International School, Mehsana, is purely based upon the unity and integrity of different people playing diverse roles towards a common goal.

Thank you,
